### Original BIA Class 2

Developed and certified by the IFA (before BGIA).  
Six roller bearing force  
guide design.

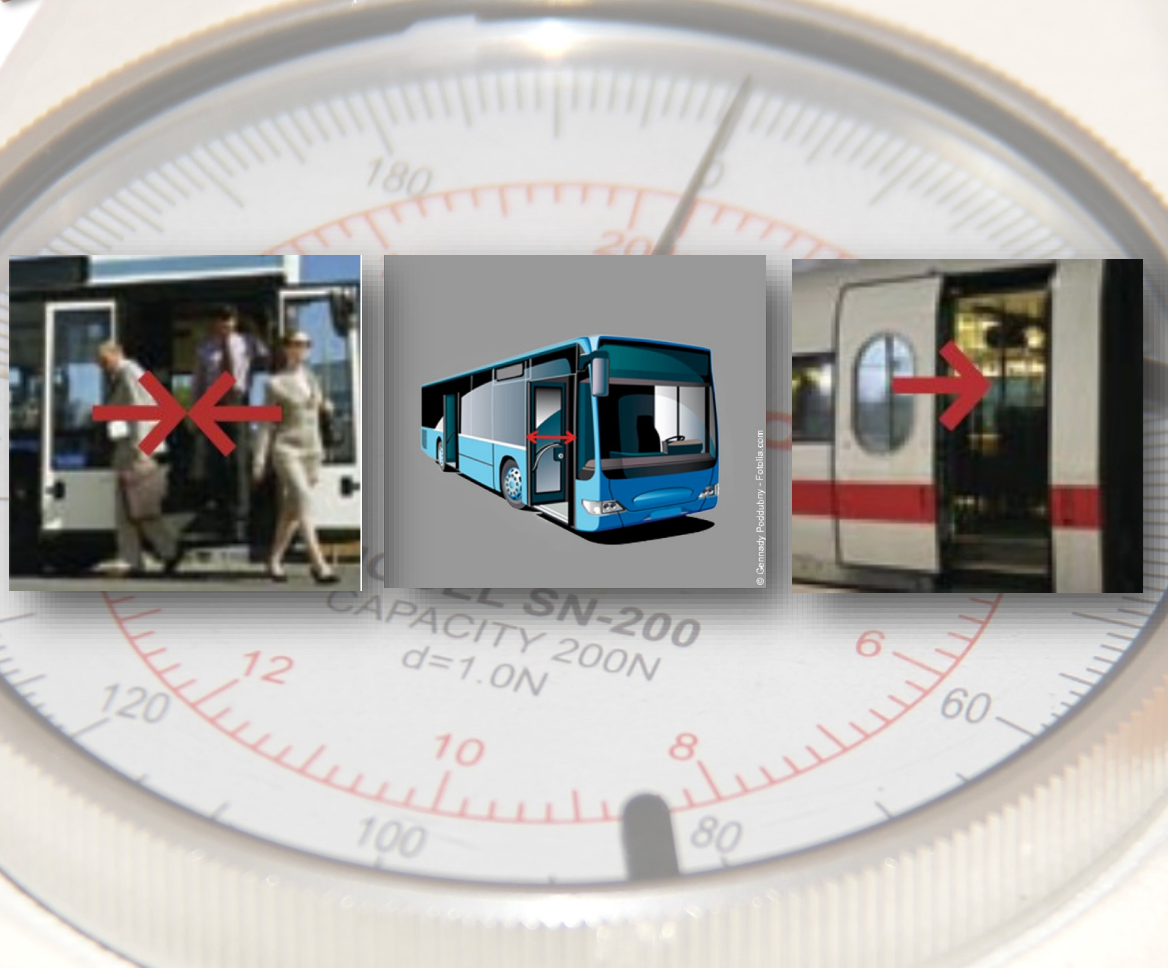

### FM100 Pinch Force Tester

Certified by the TÜV Nord  
Applicable standards:  
EN 12445/12453, prEN  
12650, DIN V 18650.

The Analogue door closing gauge is a measuring system for automatic railway doors, light rail and tramway doors and automatic bus doors. It is easy to use and simply requires the user to hold the gauge between the doors they wish to test. The gauge can be set to either track the force applied or show the peak force.

Includes:

- Analogue force gauge 500N/50kg
- Train door bracket
